# Why Public Notice Should **Remain in Newspapers**

Along with open meeting and freedom of information laws, public notice is an essential element of the

# three-legged stool of government transparency

This is not about "newspapers vs the internet".

# It's newspapers and newspaper websites vs government websites

and newspaper websites have a much larger audience. Moving notice from newspapers to government websites would reduce the presence of public notices on the internet

> Requiring independent, third-party newspapers to ensure that public notices run in accordance with the law helps

# prevent government officials from hiding information

they would prefer the public not to see

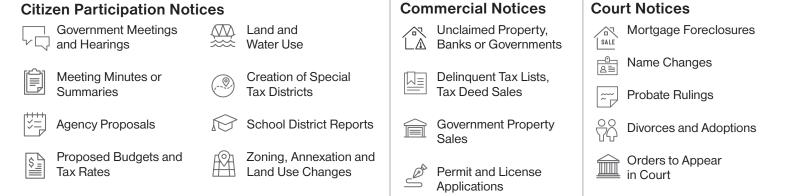

Publishing notices on the internet is neither cheap nor free

Newspapers remain the primary vehicle for public notice in

all 50 states

to the internet for public notice

because reading a newspaper is a serendipitous process.

We find things in newspapers we weren't expecting to see. On the internet, we search for specific information and ignore everything else.

# **Citizens continue** to learn about vital civic matters from newspaper notices.

Documented examples of people taking action and alerting their community after reading a newspaper notice are reported on a regular basis.

# **Verifying publication is** difficult-to-impossible on the web.

That's why the courts subject digital evidence to far greater scrutiny than evidence published in newspapers

# ypes Of Public Notices

# Significant numbers of people in rural areas still lack highspeed internet access.

Those who are older than 65 or who have lower incomes or lack high-school diplomas are also cut off from the internet in far higher numbers than the average.

# Moreover, the real digital divide for public notice is growing

due to the massive migration to smartphones and other small-screen digital devices

### Governments aren't very good at publishing information on the internet.

Grade	F

Unlike newspaper publishers, public officials aren't compelled by the free market to operate effective websites.
