#### What is a public notice?

A public notice is information intended to inform citizens of government activities. The notice should be published in a forum independent of the government, readily available to the public, capable of being securely archived and verified by authenticity.

The West Orange Times carries public notices in Orange County, Florida.

#### Are internet-only legal notices sufficient?

No. While the internet is clearly a useful resource, websites should not be used as the sole source of a legal notice.

Websites, whether controlled by a government body or a private firm, are not independent, archived, readily available or independently verified.

Newspaper legal notices fulfills all of those standards.

#### Are there different types of legal notices?

Simply put, there are two basic types - Warning Notices and Accountability Notices.

Warning notices inform you when government, or a private party authorized by the government, is about to do something that may affect your life, liberty or pursuit of happiness. Warning notices typically are published more than once over a certain period.

Accountability notices are designed to make sure citizens know details about their government. These notices generally are published one time, and are archived for everyone to see. Accountability is key to efficiency in government.
