Who benefits from legal notices?

You do. Legal notices are required because a government body or corporation wants to take action that can affect individuals and the public at large.

When the government is about to change your life, or your property or assets are about to be taken, public notices in newspapers serve to alert those affected.

Q&A

Q

Are there different types of legal notices?

Simply put, there are two basic types - Warning Notices and Accountability Notices.

Warning notices inform you when government, or a private party authorized by the government, is about to do something that may affect your life, liberty or pursuit of happiness. Warning notices typically are published more than once over a certain period.

Accountability notices are designed to make sure citizens know details about their government. These notices generally are published one time, and are archived for everyone to see. Accountability is key to efficiency in government.

What makes public notices in newspapers superior to other forms of notices?

Public notices in newspapers are serendipitous. When readers page through a newspaper, they will find important public notice information they otherwise would not find anywhere else.

Rarely do consumers specifically search online for public notices.

Q&A

Who benefits from legal notices?
You do. Legal notices are required because a
government body or corporation wants to take action
that can affect individuals and the public at large.
When the government is about to change your life, or
your property or assets are about to be taken, public
notices in newspapers serve to alert those affected.
