# Q&A

## Who benefits from legal notices?

You do. Legal notices are required because a government body or corporation wants to take action that can affect individuals and the public at large.

When the government is about to change your life, or your property or assets are about to be taken, public notices in newspapers serve to alert those affected.

## Are there different types of legal notices?

Simply put, there are two basic types - Warning Notices and Accountability Notices.

Warning notices inform you when government, or a private party authorized by the government, is about to do something that may affect your life, liberty or pursuit of happiness. Warning notices typically are published more than once over a certain period.

Accountability notices are designed to make sure citizens know details about their government. These notices generally are published one time, and are archived for everyone to see. Accountability is key to efficiency in government.

## Are internet-only legal notices sufficient?

No. While the internet is clearly a useful resource, websites should not be used as the sole source of a legal notice.

Websites, whether controlled by a government body or a private firm, are not independent, archived, readily available or independently verified.

Newspaper legal notices fulfills all of those standards.

## How much do legal notices cost?

The price for notices in the printed newspaper must include all costs for publishing the ad in print, on the newspaper's website and to [www.floridapublicnotices.com](http://www.floridapublicnotices.com).

The public is well-served by notices published in a community newspaper.

# Why Public Notice Should Remain in Newspapers

Along with open meeting and freedom of information laws, public notice is an essential element of the **three-legged stool of government transparency**

This is not about “newspapers vs the internet”.

**It’s newspapers *and* newspaper websites vs government websites**

and newspaper websites have a much larger audience. Moving notice from newspapers to government websites would **reduce the presence of public notices on the internet**

Requiring independent, third-party newspapers to ensure that public notices run in accordance with the law helps

**prevent government officials from hiding information**

they would prefer the public not to see

Since the first U.S. Congress, public officials have understood that newspapers are the best medium to notify the public about official matters because they contain the

**essential elements of public notice:**

**Accessibility**

**Independence**

**Verifiability**

**Archivability**

**Publishing notices on the internet is neither cheap nor free**

Newspapers remain the primary vehicle for public notice in **all 50 states**
