Tax sale information and the advertising list are available on our website at www.octaxcol.com.

DEFINITION OF THE PARCEL NUMBER AS USED IN ORANGE COUNTY
Sample Parcel ID: 10-20-27-1004-03020

10 is the Section where the property is located.
20 is the Township where the property is located.
27 is the Range where the property is located.
1004 is the Subdivision where the property is located.
03020 is the Block and Lot Number where the property is located.*

*The first two digits represent the Block. If the block on the written legal is a letter, then "A" is 01, "B" is 02. "C" is 03, and so on. The third letter through fifth digits represent the Lot Number. "010" indicates Lot 1; "020" is Lot 2; "030" is Lot 3, and so on. In this example 03020, would represent Block C, Lot 2.

HX indicates homestead exemption where applicable.
See current tax roll for complete legal description.

Q&A

Q What is a public notice?

A public notice is information intended to inform citizens of government activities. The notice should be published in a forum independent of the government, readily available to the public, capable of being securely archived and verified by authenticity.

The West Orange Times carries public notices in Orange County, Florida.

Q Are internet-only legal notices sufficient?

A No. While the internet is clearly a useful resource, websites should not be used as the sole source of a legal notice.

Websites, whether controlled by a government body or a private firm, are not independent, archived, readily available or independently verified.

Newspaper legal notices fulfills all of those standards.

Q Are there different types of legal notices?

A Simply put, there are two basic types - Warning Notices and Accountability Notices.

Warning notices inform you when government, or a private party authorized by the government, is about to do something that may affect your life, liberty or pursuit of happiness. Warning notices typically are published more than once over a certain period.

Accountability notices are designed to make sure citizens know details about their government. These notices generally are published one time, and are archived for everyone to see. Accountability is key to efficiency in government.

Q Who benefits from legal notices?

A You do. Legal notices are required because a government body or corporation wants to take action that can affect individuals and the public at large.

When the government is about to change your life, or your property or assets are about to be taken, public notices in newspapers serve to alert those affected.

Q How much do legal notices cost?

A The price for notices in the printed newspaper must include all costs for publishing the ad in print, on the newspaper's website and to www.floridapublicnotices.com.

The public is well-served by notices published in a community newspaper.

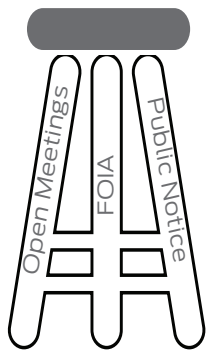
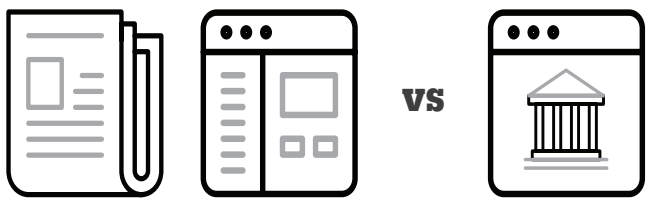
Why Public Notice Should Remain in Newspapers

Along with open meeting and freedom of information laws, public notice is an essential element of the

three-legged stool
of government transparency





This is not about "newspapers vs the internet".

It's newspapers *and* newspaper websites vs government websites

and newspaper websites have a much larger audience.
Moving notice from newspapers to government websites would **reduce the presence of public notices on the internet**

Since the first U.S. Congress, public officials have understood that newspapers are the best medium to notify the public about official matters because they contain the

essential elements of public notice:

Accessibility

Independence

Verifiability

Archivability

Publishing notices on the internet is neither cheap nor free

Requiring independent, third-party newspapers to ensure that public notices run in accordance with the law helps

prevent government officials from hiding information

they would prefer the public not to see

Newspapers remain the primary vehicle for public notice in **all 50 states**

Types Of Public Notices

Newsprint is inherently superior to the internet for public notice

because reading a newspaper is a serendipitous process.

We find things in newspapers we weren't expecting to see. On the internet, we search for specific information and ignore everything else.

Citizens continue to learn about vital civic matters from newspaper notices.

Documented examples of people taking action and alerting their community after reading a newspaper notice are reported on a regular basis.

Verifying publication is difficult-to-impossible on the web.

That's why the courts subject digital evidence to far greater scrutiny than evidence published in newspapers

Significant numbers of people in rural areas still lack high-speed internet access.

Those who are older than 65 or who have lower incomes or lack high-school diplomas are also cut off from the internet in far higher numbers than the average.

Moreover, the real **digital divide for public notice is growing** due to the massive migration to smartphones and other small-screen digital devices

Governments aren't very good at publishing information on the internet.

Unlike newspaper publishers, **public officials aren't compelled by the free market to operate effective websites.**

ESSENTIAL ELEMENTS OF A PUBLIC NOTICE

Federal and state public notice statutes generally establish four fundamental criteria for a public notice.

Each of these elements are critical aspects of the checks and balances that public notice was designed to foster.

1. Accessible

Every citizen in the jurisdiction affected by the notice must have a realistic opportunity to read it

2. Archivable

Notices must be capable of being archived in a secure and publicly available format for the use of the judicial system, researchers and historians

3. Independent

Notices must be published by organizations independent of the government body or corporation whose plans or actions are the subject of the notice

4. Verifiable

There must be a way to verify that each notice was an original, unaltered notice and actually published in accordance with the law
